MAIL-ORDER CATALOGUE

nineteen.ninetyfive

Two seasons are departed from the last update. Our presence on the scenario is always firm and vital as the rhythm of our two labels **MINUS HABENS** and **DISTURBANCE**.
A hard work tracking down those talents hidden in the underground music chaos, that we consider essential entities to improve your favorite sonic dreamscapes.
All the new releases are the result of a considered search conducted through undiscovered audioareas that we would propose to all people tuned on our same wave-length. **MINUS HABENS** bring you an improved set of heterogeneous visions generated from multiple and obscure forces as those contained in the works of **KLÄNGE, NIGHTMARE LODGE, LOI INTERCEPS (aka MYNOX LAYH), RED SECTOR A, etc...**
The actual catalogue of diverse and exciting sounds ranges sharp emotions among joy and pain, nightmare and dream, light and shade, distributing circuitous electronic pictures. In a parallel dimension, **DISTURBANCE** sucks you into liquid trance-oriented spirals shaped from **A3000, THE FRUSTRATED, MONOMORPH, ASTRAL BODY, LE FORBICI DI MANITU', etc...** that let you voyage in the interzones of the postcybernetic-age.
As you know starting in November '93, we've taken risks in the publishing industry, editing **NEURAL**, a 68-pages bimonthly magazine.
Since June '94, it's also distributed through the Italian newsstands.
Besides exploring VR, INTERNET, CYBERSEX, U.F.O., this magazine includes a vast section focused on the new electronic music wave.
Moreover we're distributing three interesting models of **Brain Machines**.
They're effective tools to stimulate the psychic/neural circuits towards the mantra experience.
Try to combine these machines with our music...

Ivan Iusco,
M.H. RECORDS,
April 1995.
